Software Developer with **3+ years of experience** in web development, specializing in **frontend engineering** with **React.js, Next.js, and modern UI frameworks**. Skilled in **building dynamic user interfaces, optimizing performance, implementing RESTful APIs, and deploying scalable applications**. Successfully improved **website accessibility by 15%** and **boosted conversion rates by 10%**. Passionate about **writing clean, maintainable code**, continuous learning, and driving innovation in web technologies.

SKILLS

Soft Skills: Problem-Solving Skills, Time-Management

Tech Stacks: React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, RESTful APIs and Asynchronous Data Fetching, Web Performance Optimization, Responsive Web Design, Package Managers (npm, yarn), Build Tools (Webpack, Vite), CSS3, HTML5, Tailwind CSS, SASS, Unit Testing (Jest with supertest).

WORK EXPERIENCE

Front-End Developer (Contract)

Deen Minder Limited – Osun, Nigeria | Apr 2024 – Jun 2024

- Communicated with clients to understand requirements and provide updates.
- Identified and resolved technical issues promptly, ensuring seamless user experience.
- Provided technical support and addressed customer inquiries, improving client satisfaction.
- Enhanced problem-solving skills, attention to detail, and customer interaction abilities.

This role enhanced my problem-solving skills, attention to detail, and customer interaction abilities.

Frontend Engineer

DataQolo – Lagos, Nigeria | Jul 2024 – Sept 2024

- Developed and maintained scalable front-end components using **React.js & TypeScript**.
- Integrated and optimized **RESTful APIs** to enhance user interactions
- Conducted **code reviews** to maintain high-quality, clean code standards.
- Participated in **Agile processes**: sprint planning, daily stand-ups, and retrospectives.
- Collaborated with cross-functional teams to **troubleshoot and resolve issues**, ensuring smooth development workflows.

This role sharpened my frontend development skills and deepened my understanding of user-centric design principles.

EDUCATION

Obafemi Awolowo University, Ile - Ife, Nigeria | Sept 2019 – Dec 2024

B.Sc. Science and Technology Education

OIC Tech Hub, Osogbo, Nigeria | Jul 2023 – Feb 2024

Software Development

PROJECTS

Social Media Website with Theme Customization

- Developed a social media platform with theme customization, allowing users to personalize their experience.
- Integrated a chat/messaging section with filtering options for easy navigation of conversations.

- Created a request system where users can accept or decline requests.
- Built a profile section where users can update personal information, avatar, and bio.
- Users can create and share stories, as well as post, like, comment, bookmark, and share posts.
- Added features for editing and deleting posts, ensuring a seamless content management experience.
- Implemented a notification section to alert users about interactions and updates on their posts, messages, and requests.

Fitness Tracking Application

Tech Stack: TypeScript, React.js, Tailwind CSS, Framer Motion,

- Developed a fitness tracking web app to help users log their workouts, track progress, and set fitness goals.
- Utilized TypeScript and React for building a user-friendly, scalable frontend, ensuring type safety and enhanced code maintainability.
- Styled the app with Tailwind CSS for a clean, responsive design that adapts seamlessly to various devices.
- Integrated Framer Motion to add smooth animations, enhancing the overall user experience.
- Integrated a Classes Section where users can view available fitness classes, their schedules, and book classes easily.
- Added a Become a Member section for users to sign up and gain access to premium services, making membership registration quick and simple.
- Built an Integrated Contact Form, allowing users to reach out with inquiries or feedback directly through the app.

Fullstack Blog App with the MERN Stack (Ongoing)

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Admin Dashboard

- Developed a fully functional full-stack blog application using the MERN stack, offering a seamless user experience for both readers and administrators.
- Designed and implemented an Admin Dashboard, allowing the management of users, categories, posts, and real-time moderation of content. Admins can easily approve or delete posts, manage user roles, and filter content efficiently.
- Integrated a Featured Post Section where admins can highlight important or popular posts on the homepage, drawing attention to key content.
- Enabled User Profile Management, allowing users to update their profiles, including personal details, avatars, and preferences. Users can customize their profiles and track their engagement within the platform.
- Integrated JWT Authentication to ensure secure user login and session management across the application.

English (Native proficiency) • **Yoruba** (Native proficiency)

ORGANISATIONAL AND VOLUNTEER EXPERIENCE

Technical Mentor – Code for Change, Osogbo, Nigeria

Jan 2024 - Dec 2024

- Provided mentorship to beginner and intermediate developers, guiding them through front-end development technologies and real-world project implementation.
- Conducted regular check-ins to monitor progress, provide feedback, and keep students motivated to achieve their goals.
- Collaborated with a team of volunteers to organize community-based events and coding sessions that improved local access to technical education.
